FOREWORD

These profiles of North Carolina Counties were prepared for our Legislators and other decision-makers to provide up-to-the-minute statistics at a glance. We hope the information will prove useful, and we welcome suggestions for improvement.

The source for each category of information is presented below.

1. Population density and total land area: 1960 Area Measurement Report, United States Department of Commerce, E-20 #35 September 1967. The population density for 1967 was tabulated by the Statistical Services Center from their recent 1967 population estimates.

2. 1960 Population - United States Census; Natural Increases-derived from statistics on births and deaths furnished by the North Carolina Department of Public Health; 1967 Population from current report.

3. & 4. Income and Retail Sales: North Carolina Department of Tax Research.

5. School Enrollment: North Carolina Department of Public Instruction.

6. Motor Vehicles: North Carolina Department of Motor Vehicles--Auto and Truck Registrations.

7. Agriculture: North Carolina Department of Agriculture, Statistical Division--Annual Crop reporting series.

8. Employment: North Carolina Employment Security Commission, Bureau of Employment Security Research.

9. Employment Certificates: North Carolina Department of Labor. These certificates were issued by County Directors of Public Welfare, who serve as issuing agents for the Department of Labor, to minors 16 and 17 years of age for full-time employment.

10. Recreation: North Carolina Recreation Commission. Additional information may be secured in each County Register of Deeds office or County Agent's office.

NORTH CAROLINA

Total Land Area - 48,880.0 sq. mi.

1. POPULATION DENSITY (Per Sq. Mi.)

1960	93.2
1967	102.8

2. POPULATION

1960 Population	4,556,155
Natural Increase (1960-67)	470,395
Expected 1967 population	5,026,550
Estimated 1967 population	5,023,639
Net Migration	-2,911

3. INCOME
